

No nails,
no screws

Easy Box Standard

Up to 6 x 2.5 x 2.5 m
Reinforced sides
Lifting straps for crane

Easy Box Standard

The remarkably light, stackable Easy Box Standard is ideal for packaging larger items. The OSB packing boxes can be adapted individually to match the size of their contents.

The key features of the Easy Box Standard are its light weight and easy assembly – no nails necessary. No levers are needed to pop the sides of the box off. This box can also be produced individually at no extra cost. The multi-use Easy Box Standard can be sized to fit your products, so there is never an issue with unnecessary unused volume. A seal fastened to the joints indicates when the box has been opened.
